

## **BEDROCK DRILLING ENVIRONMENTAL PROTECTION POLICY**

The Company and its management are fully committed to all aspects of environmental protection. The conduct of all its activities will conform to recognised international and local environmental protection requirements and it will fulfil its obligations and commitments to protect the environment and prevent pollution regardless of location.

To achieve this, the Company will:

- Ensure that all employees and contractors are fully aware of the Company Environment Protection Policy and Environmental Strategy and the management's commitment to it.
- Carry out Environmental Impact Assessments (EIA) in advance of all major activities and communicate the results to all government agencies and other relevant stakeholders.
- Ensure environmental management plans are in place and their implementation is regularly monitored
- Encourage personnel to be pro-active in reporting shortfalls or failures in environmental protection.
- Have contingency plans in place to swiftly mitigate any potential damage to the environment.
- Continually review and update procedures to ensure they are valid and appropriate.
