

## ENVIRONMENTAL POLICY

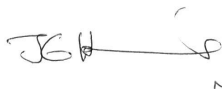

Bedrock Drilling is fully committed to all aspects of environmental protection. The conduct of all Company activities will conform to recognised international and local environmental protection requirements regardless of location.

To achieve this, the Company will:

- Carry out Environmental Impact Assessments (EIA) in advance of all major activities and communicate the results to all government agencies and other relevant stakeholders.
- Ensure environmental management plans are in place and their implementation is regularly monitored.
- Encourage personnel to be pro-active in reporting shortfalls or failures in environmental protection.
- Have contingency plans in place to swiftly mitigate any potential damage to the environment.
- Continually review and update procedures to ensure they are valid and appropriate.

To assist in these objectives, Bedrock employees and sub-contractors shall:

- Comply with the requirements of the Bedrock QHSE Management System.
- Report Environmental concerns and poor environmental conditions immediately to their line manager or a Bedrock Director.
- Consider environmental aspc risk assessments, Job Safety Analyses, pre-job briefing / toolbox talks and safety meetings.
